Copy a Campaign to Another Account in Digioh

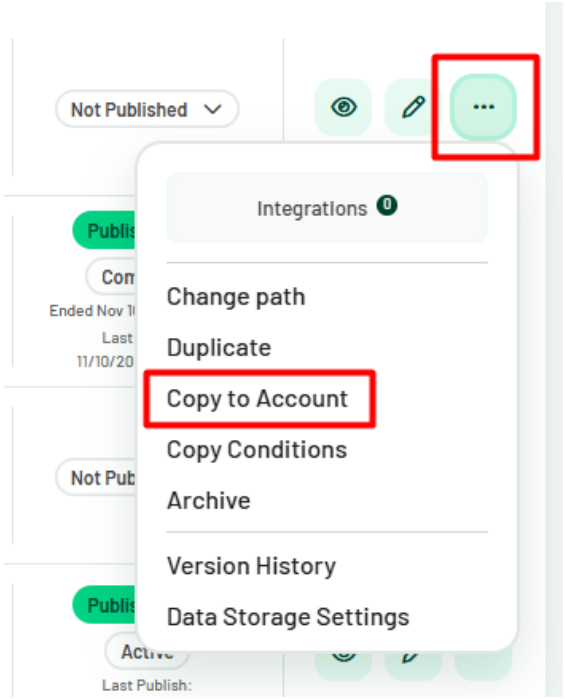

Last Modified on 11/24/2026 4:30 pm EST

Only Super User accounts can use this feature.

You can copy a campaign from one Digioh account into another account. The original campaign stays where it is.

Before you start: Get the Account ID of the account you're copying the campaign to.

1. Log in to the account that has the campaign you want to copy.
2. Find the Campaign in the list. Click the **...** menu on that Campaign, then choose **Copy to Account**:

3. In the popup, enter the Account ID you're copying the campaign to, then click **Copy Campaign**.

The copied campaign now appears in the other account's campaign list.
