Digioh Platform Training Videos: Getting Started with Digioh

Last Modified on 06/10/2026 11:02 pm EDT

Learning a new platform can be overwhelming. That's why we created this series to walk beginners through the Digioh platform. These videos will show you how to navigate the dashboard, create new pop-ups, set rules and conditions, create integrations, and optimize your pop-ups.

1. Intro, Logging in and Navigation

This video shows how to log in and navigate Digioh's interface.

2. Lightbox Editor Layout Section

This video introduces the Lightbox Editor. In this video, you will learn how to edit/design the layout of your lightbox. Please note that to access the editor, you need to have an existing lightbox, duplicate an existing lightbox, or choose a lightbox from our themes. To use a theme, click the "+ New Lightbox" button in green.

3. Lightbox Editor Forms Section

This video shows how to use the Form section in the Lightbox Editor. By the end of this video, you will be able to create form fields, label forms, and adjust the dimensions & help text of your form.

4. Thank You Page section - Lightbox Editor

This video shows how to use the Thank You Page section in the Lightbox Editor. By the end of this video, you will be able to turn on and create a Thank You page. Remember, thank you page settings are set independently from the layout!

5. Lightbox/Sidebar section - Lightbox - Lightbox Editor

This video will go through how to set up a lightbox popover modal. This is available in the Lightbox/Sidebar section of the Lightbox Editor. After completing this video, you will be familiar with lightbox popovers and understand how to customize one to your website's needs.

6. Lightbox/Sidebar section - Sidebar - Lightbox Editor

In this video you will learn how to set up and customize a sidebar. The sidebar functionality is available in the Lightbox/Sidebar section of the Lightbox Editor.
