How to Receive Invoices by Email

Last Modified on 06/10/2026 11:02 pm EDT

By default, email invoices are turned off, but you can enable them with a few clicks. Be sure to add finance@digioh.com and support@digioh.com to your address book to avoid the emails going to the spam folder!

Log into Digioh, and hover over your name in the upper-right corner. Click Billing Information from the dropdown menu.

Add the email address where you'd like to receive the invoices. Do this only if this is different than your account's email, otherwise leave the field blank.

Finally, check the "Receive Invoice Emails" campaign, and click "Save Invoice Preferences".
