How do I archive a Campaign?

Last Modified on 06/24/2026 11:29 am EDT

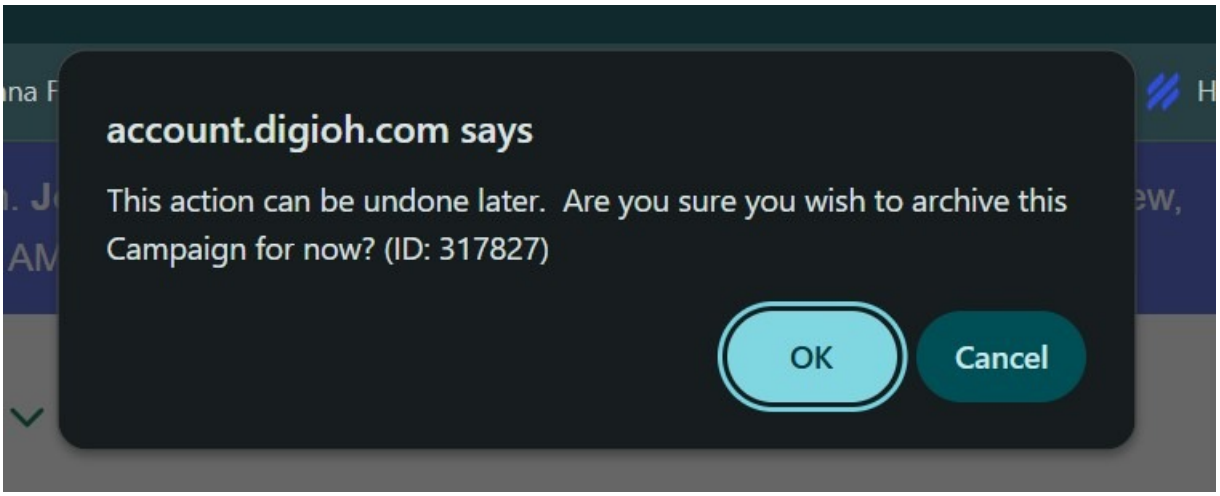

If your Digioh account contains a large number of campaigns, archiving helps keep your campaign list organized. Archiving removes campaigns you're not currently using from your main list without permanently deleting them. Digioh supports both single and bulk campaign archiving.

How to Archive a Campaign:

Find the campaign in your list, click the three-dot (more) menu, and select **Archive**.

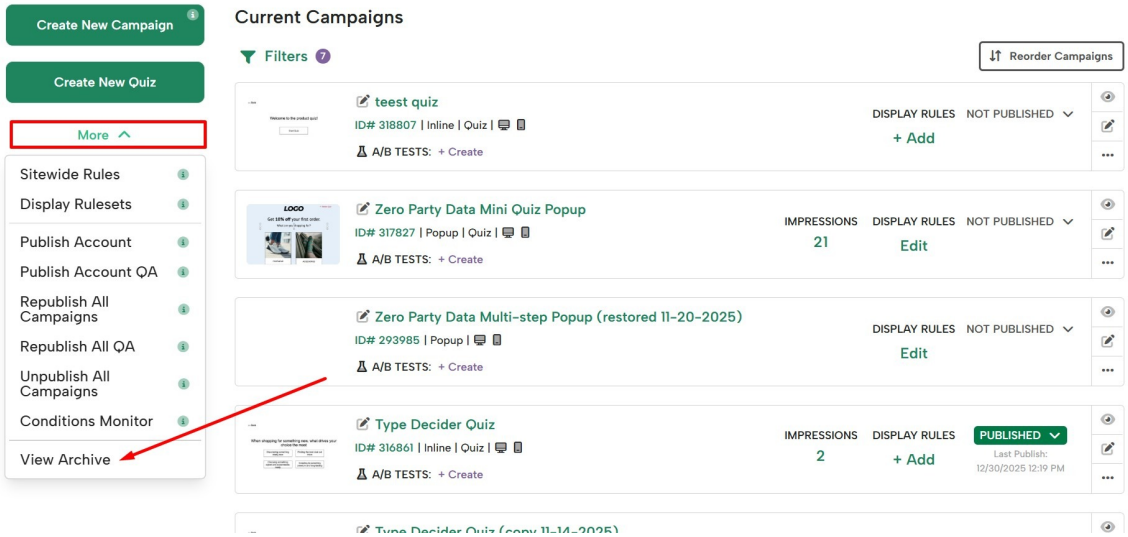

You'll see a prompt like the one below. Click **OK** to confirm.

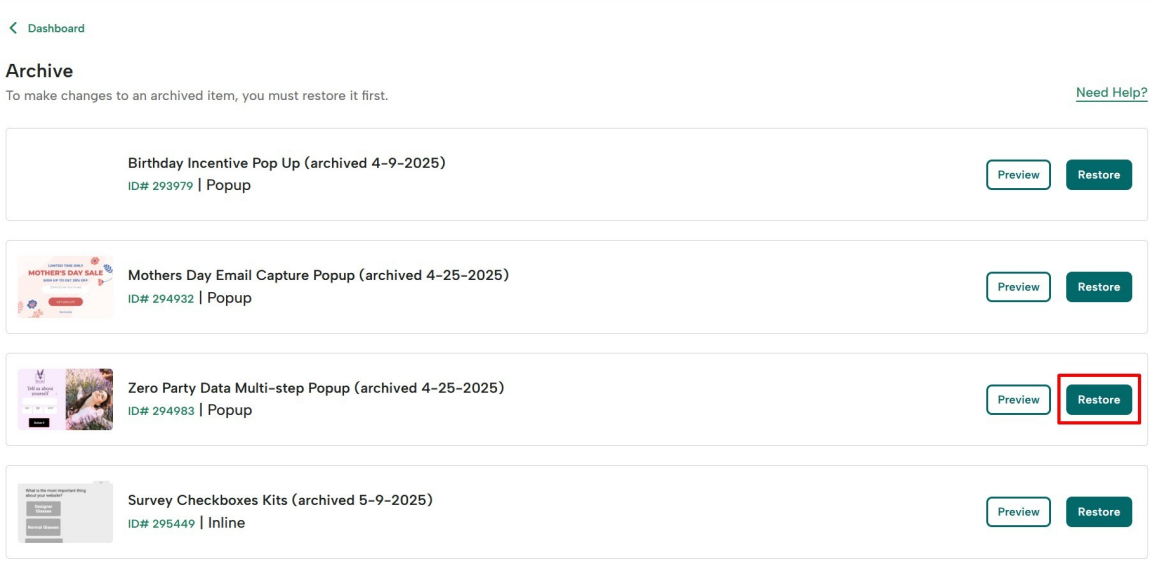

How to View Archived Campaigns:

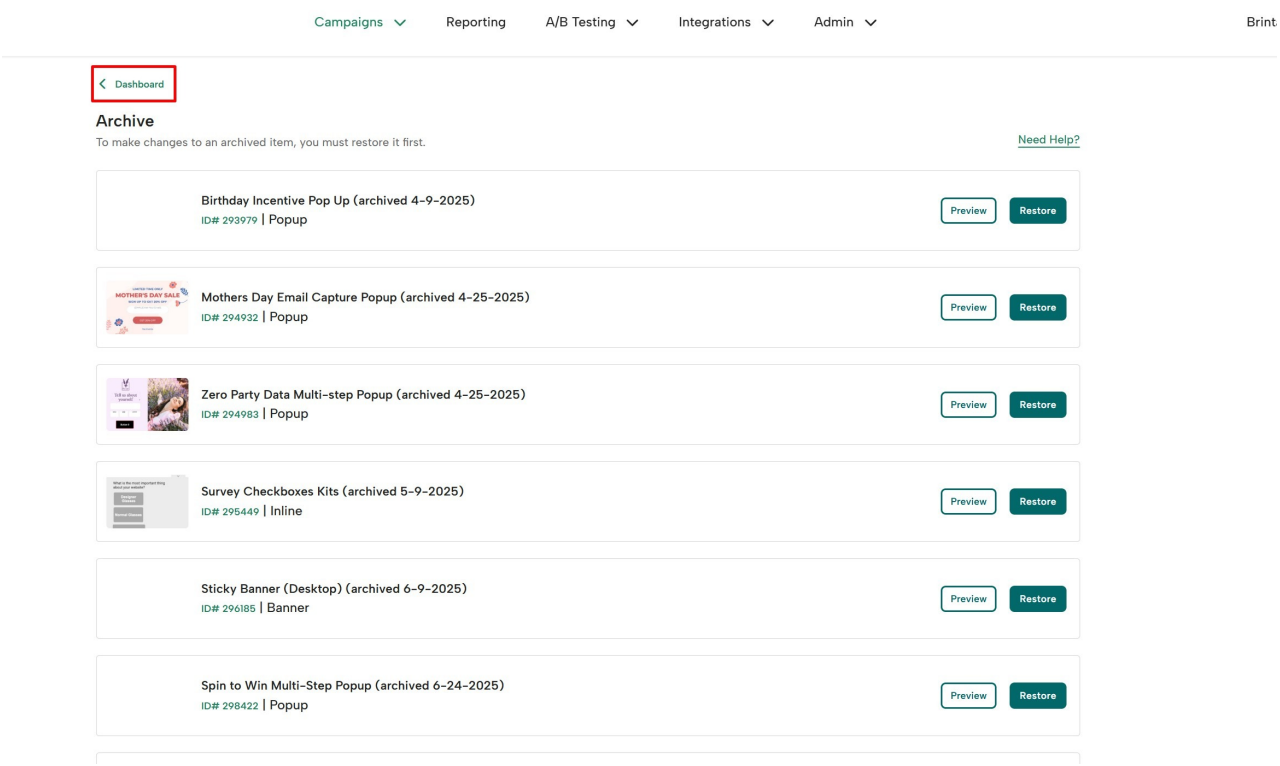

Open the **More** menu from the campaign dashboard and click **View Archive**.

How to Restore an Archived Campaign: In the archive view, click **Restore** for the campaign you want to return to your primary campaign list.

Click **Dashboard** to return to your main campaign list.

Archive Multiple Campaigns

To archive multiple campaigns at once, copy the URL below and replace the placeholder campaign IDs with the IDs of the campaigns you want to archive.

https://account.digioh.com/Box/ArchiveMulti/12345,98765,10101,11111

You can include as many campaign IDs as needed, separated by commas.
