How to display a lightbox after 3 seconds

Last Modified on 06/10/2026 11:02 pm EDT

Instead of immediately showing your visitors a lightbox, you can give them a few seconds to read your content, then display the lightbox. Here's an example of how you can display a time-based lightbox after 3 seconds.

1. Go to the "Conditions" section of the Design Editor.
2. Click on "Add Conditions" and then "Add New Rule".
3. From the dropdown menu, select "Total Seconds on Page":

4. Then set "Total seconds on page" to "Greater than" "3":
