

How to Add Custom Fonts

Last Modified on 06/10/2026 11:02 pm EDT

What You'll Learn in This Article

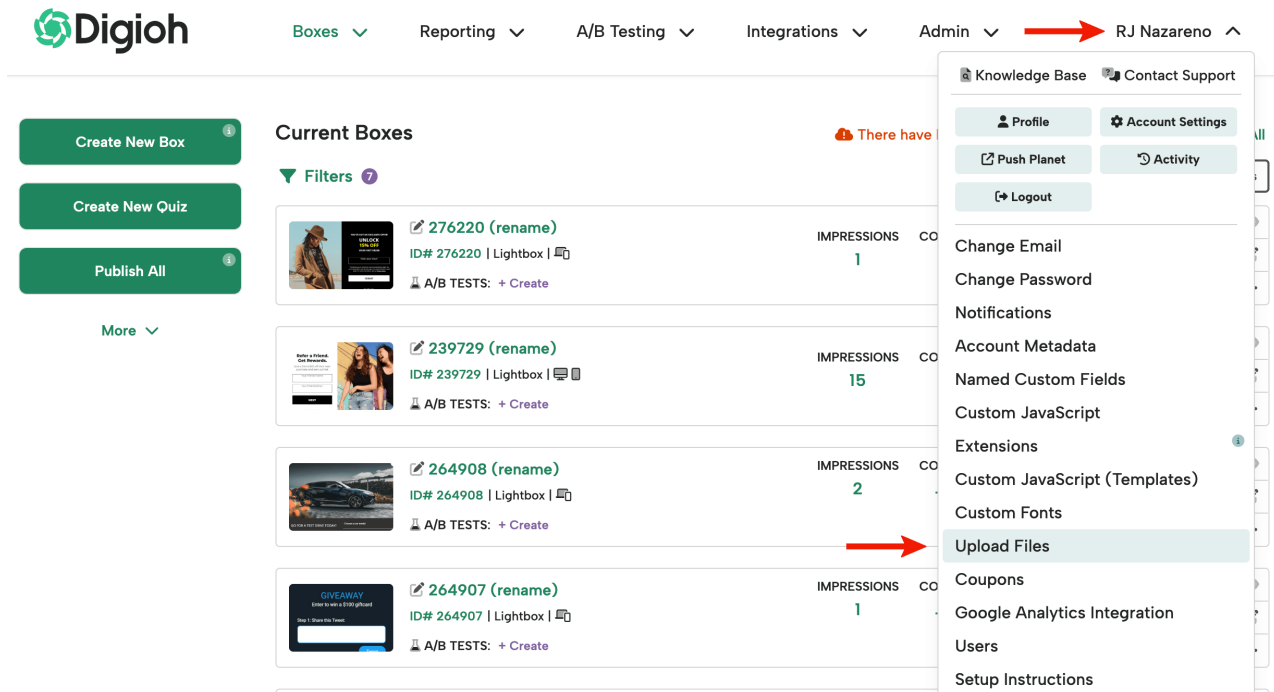

This guide will walk you through the process of adding custom fonts in your account.

- Navigate to the Files page in Digioh to upload your font files.
- Apply the Font in the Editor

Digioh's form editor allows you to upload custom fonts for use in your campaigns, ensuring your forms and pop-ups stay on-brand.

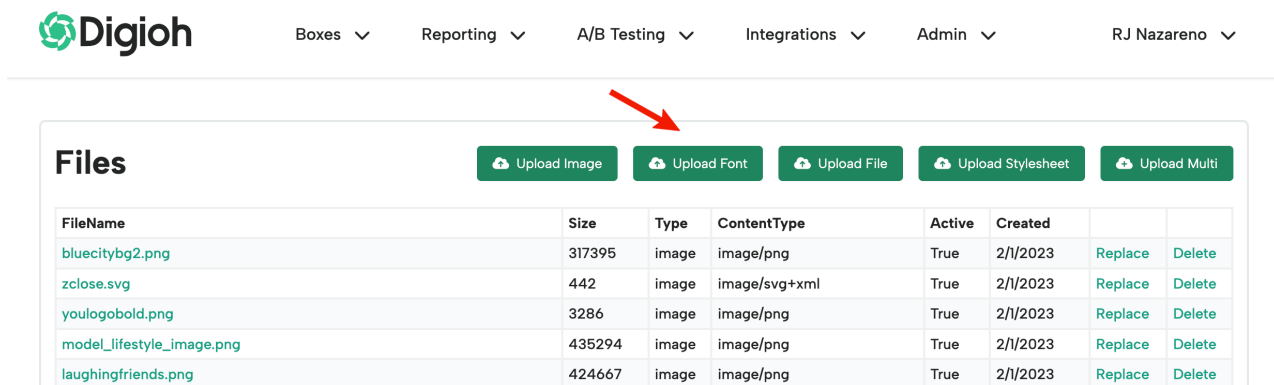

To add your custom fonts to the Design Editor, follow these steps:

1. Click your account name in the upper-right corner, then select Upload Files

The screenshot shows the Digioh Admin dashboard. The top navigation bar includes 'Boxes', 'Reporting', 'A/B Testing', 'Integrations', 'Admin', and the user name 'RJ Nazareno'. A dropdown menu is open under 'Admin', with 'Upload Files' highlighted by a red arrow. The main content area shows a list of 'Current Boxes' with details like ID, name, and impressions.

2. Click "Upload Font."

The screenshot shows the 'Files' page in the Digioh Admin interface. The top navigation bar is the same as in the previous screenshot. The 'Files' section has a header with several upload buttons: 'Upload Image', 'Upload Font', 'Upload File', 'Upload Stylesheet', and 'Upload Multi'. The 'Upload Font' button is highlighted with a red arrow. Below the buttons is a table listing existing files.

FileName	Size	Type	ContentType	Active	Created		
bluecitybg2.png	317395	image	image/png	True	2/1/2023	Replace	Delete
zclose.svg	442	image	image/svg+xml	True	2/1/2023	Replace	Delete
youlogobold.png	3286	image	image/png	True	2/1/2023	Replace	Delete
model_lifestyle_image.png	435294	image	image/png	True	2/1/2023	Replace	Delete
laughingfriends.png	424667	image	image/png	True	2/1/2023	Replace	Delete

Upload

Select a File From Your Computer:

Upload File

Note: The file size limit is **4MB**. For faster loading, we recommend keeping images **under 1MB**.

Digioh accepts the following image file types: JPG, PNG, SVG, GIF, and WEBP. [Learn more about images...](#)

3. Click on your account name and select "Custom Font."

The screenshot shows the Digioh dashboard interface. At the top, there is a navigation bar with the Digioh logo and several menu items: Boxes, Reporting, A/B Testing, Integrations, Admin, and a user profile for RJ Nazareno. A red arrow points to the user profile. Below the navigation bar, there are three main buttons: 'Create New Box', 'Create New Quiz', and 'Publish All'. To the right of these buttons is a 'Current Boxes' section with a 'Filters' dropdown. Below this, there is a table of boxes with columns for 'IMPRESSIONS' and 'CO'. The table contains four rows of box information, each with a thumbnail, ID, and 'A/B TESTS' link. A red arrow points to the 'Custom Fonts' option in the account menu, which is highlighted in the screenshot.

Box ID	Impressions	CO
276220 (rename)	1	CO
239729 (rename)	15	CO
264908 (rename)	2	CO
264907 (rename)	1	CO

4. Select the font from the appropriate dropdown and give your font a name. Click "Generate and Save New Font."
