

How To Integrate With Adestra

Last Modified on 07/23/2026 3:12 pm EDT

Digioh integrates with [Adestra](#) to grow your email list with [capture forms](#), [surveys](#), [product recommendation quizzes](#), and other widgets.

If you are setting up a Digioh integration by yourself, we first recommend reading about [Digioh Integration Basics](#).

Follow these steps to integrate Adestra with Digioh.

1. Go to the Integrations page, and create a new integration.
2. Select Adestra from the Integration dropdown, and name your integration.
3. On the next page, enter your Adestra account info. Click Save.
4. Choose a table and a list for the integration on the Integration page.
5. Once the integration is set up, add it to your widgets, and they will submit to the list specified in the integration.
