# Mapp with Digioh

Last Modified on 07/23/2026 3:18 pm EDT

Digioh is fully-integrated with Mapp. You can use our Mapp integration to do the following:

- Email Capture Web Forms (pop-ups, Pop-Ups, and Embed Forms)
- Landing Pages
- Email Preference Centers

Our real-time integration captures email addresses and passes them to your Mapp account. We can pass custom and hidden fields along with emails. You can also set up Digioh to not store any data on Digioh servers (i.e. everything gets passed directly to Mapp in real-time).

If you are setting up a Digioh integration by yourself, we first recommend reading about Digioh Integration Basics.

Need a hand along the way? Reach out to support@digioh.com.
