

How To Submit a Landing Page Form to an Integration

Last Modified on 06/25/2026 9:31 am EDT

When setting up a page, you need to make sure the information on the form is pushed to the integration correctly. Follow these steps to ensure your form submissions go through.

1. Set up a form by selecting the "Form" tab, then clicking "Add."

Treatment of acute bronchitis with Chinese herbs.

CV Acute: Research

CV ACUTE combines TCM practice with proprietary modern analytical chem techniques¹ to support immune health. The TCM formula and individual botanicals Forsythia suspensa, Lonicera japonica and Scutellaria baicalensis, have hundreds of scientific studies that demonstrate overall immune system defense with enhanced support for respiratory health.^{2,5}

SUPPORTED BY GLOBAL MEDICAL AUTHORITIES

In 2011, the Chinese Ministry of Health commissioned a panel of experts from virology, epidemiology, laboratory diagnostics, clinical medicine, and Traditional Chinese Medicine (TCM) to develop guidelines for diagnosis and treatment of acute bronchitis. The CV ACUTE formula was cited as an important TCM remedy in the Chinese Ministry of Health Report. In addition, the World Health Organization (WHO) report cited the formula to dispel wind and heat and to remove toxins and dampness during

5. Select your integration. This way, when users submit the form, it will go to your selected ESP or CRM.
