

How To Integrate With EmailOctopus

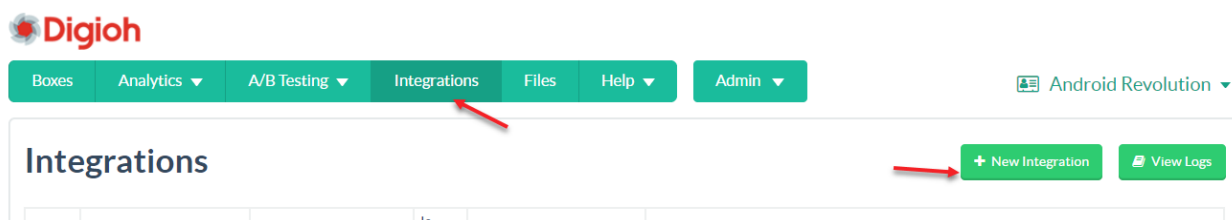

Last Modified on 06/24/2026 11:46 am EDT

EmailOctopus offers a suite of simple and powerful tools you can use to grow your audience. With Digioh, you can build custom pop-up forms, quizzes, surveys, and landing pages that capture new leads and send them to EmailOctopus in real-time. Follow these instructions to set up your EmailOctopus integration.

If you are setting up a Digioh integration by yourself, we first recommend reading about [Digioh Integration Basics](#).

Integrating Digioh with EmailOctopus

First, click the **Integrations** tab, and create a **New Integration**.

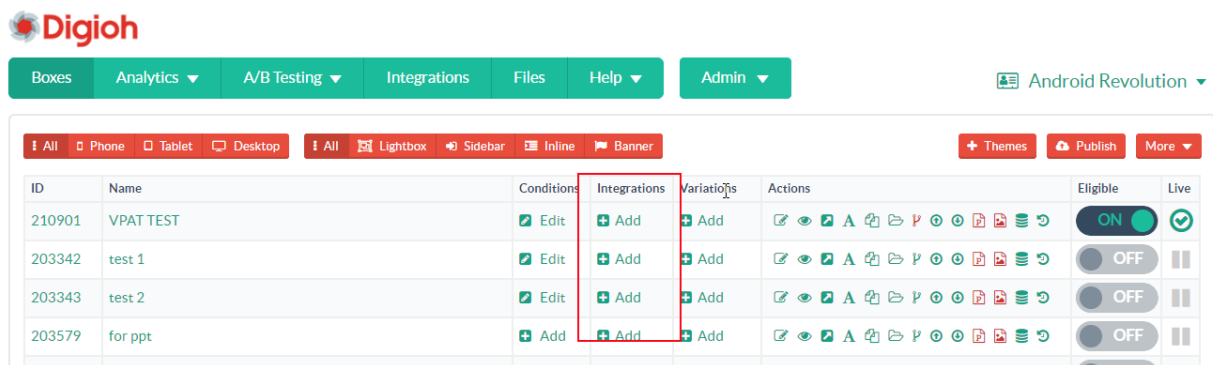

Select **EmailOctopus** from the Integration dropdown and name the integration. Enter your **List ID** and the **API key** for your EmailOctopus account

A screenshot of the 'Add New Integration' form in the Digioh application. The form is titled 'Add New Integration' and contains the following fields: 'Friendly Name' (text input with value 'EmailOctopus (5-3-2021)'), 'Integration' (dropdown menu with value 'EmailOctopus'), 'List ID' (text input), 'API Key' (text input), and 'Box (optional)' (dropdown menu with value '[None]'). At the bottom of the form, there are two buttons: 'Create Integration' (green) and 'Cancel' (gray).

Click **Create Integration**. On the Integrations page, use the **Map Fields** link to map additional fields

beyond email and name.

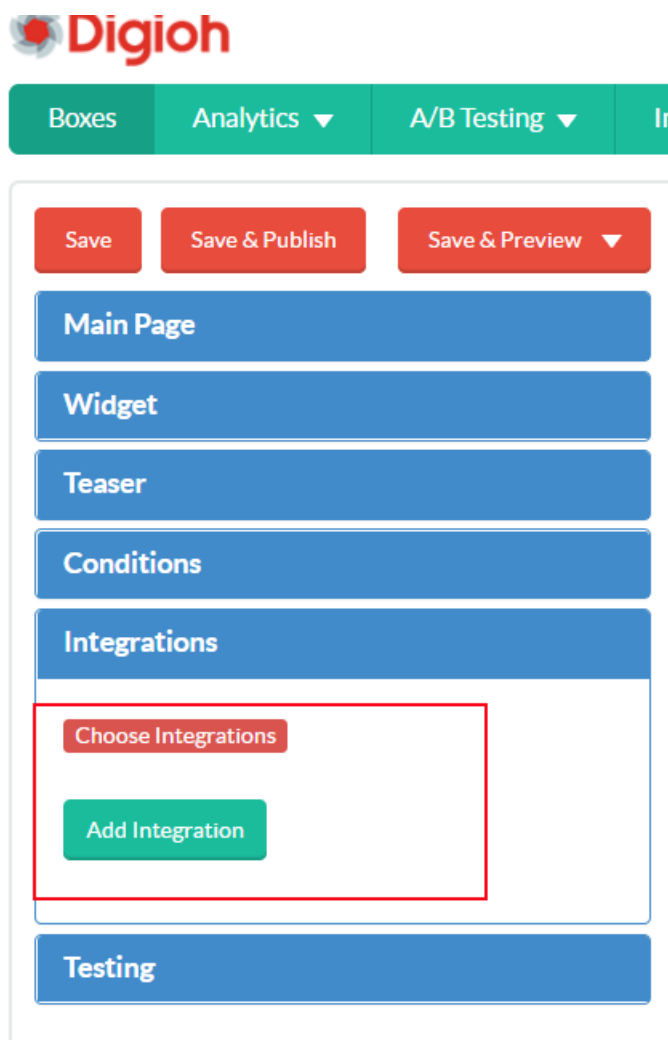

To apply the integration to a campaign, use the **Add** or Edit link in the **Integrations** column on the **Boxes** page.

The screenshot shows the Digioh interface with the 'Boxes' tab selected. A table lists campaigns with columns for ID, Name, Conditions, Integrations, Variations, Actions, Eligible, and Live. The 'Integrations' column for the first four rows contains an 'Add' button, which is highlighted with a red box.

ID	Name	Conditions	Integrations	Variations	Actions	Eligible	Live
210901	VPAT TEST	Edit	Add	Add	Edit View Add Copy Paste Delete Undo Redo Refresh Reset Close	ON	✓
203342	test 1	Edit	Add	Add	Edit View Add Copy Paste Delete Undo Redo Refresh Reset Close	OFF	
203343	test 2	Edit	Add	Add	Edit View Add Copy Paste Delete Undo Redo Refresh Reset Close	OFF	
203579	for ppt	Add	Add	Add	Edit View Add Copy Paste Delete Undo Redo Refresh Reset Close	OFF	

You can also add it from the **Integration** section of the editor.

The screenshot shows the Digioh editor interface with the 'Integrations' section selected. A red box highlights the 'Choose Integrations' and 'Add Integration' buttons.

Save **Save & Publish** **Save & Preview**
