How to use the ROOT path for your Preference Center URL

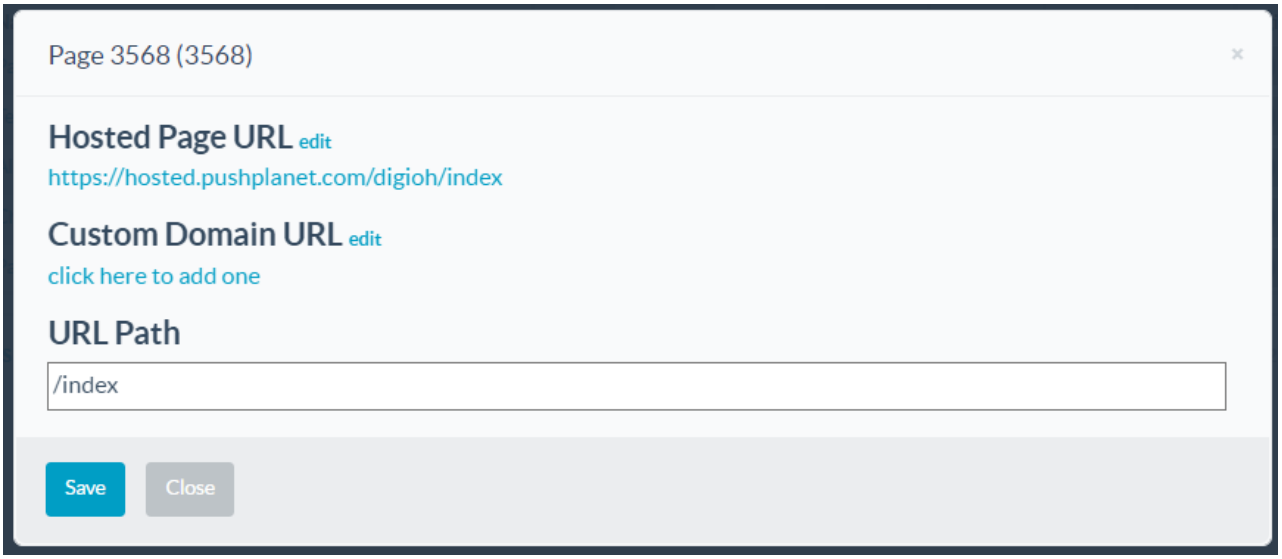

Last Modified on 06/24/2026 12:43 pm EDT

To use the root path as a preference center follow these steps:

Step 1: Click on the edit URL

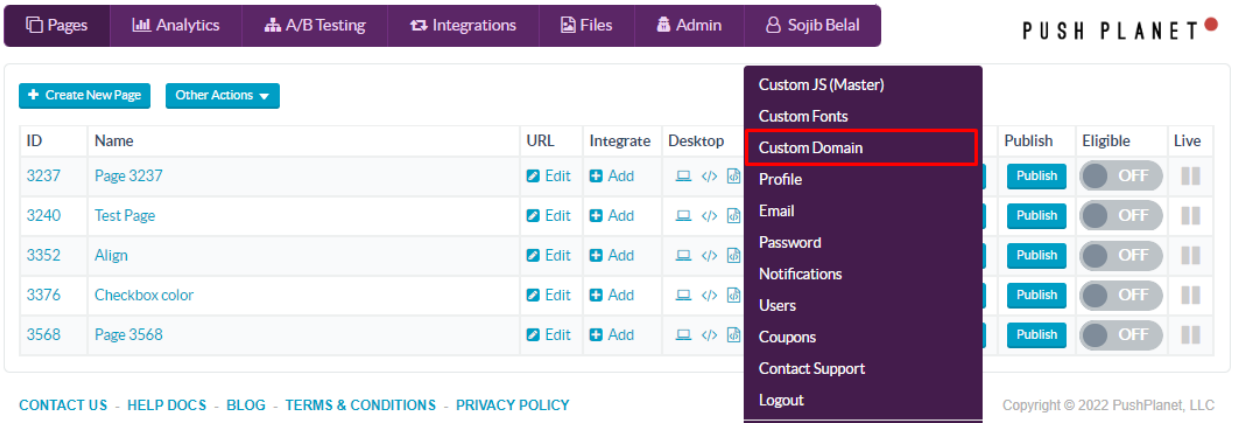

Then make the URL Path for the page /index

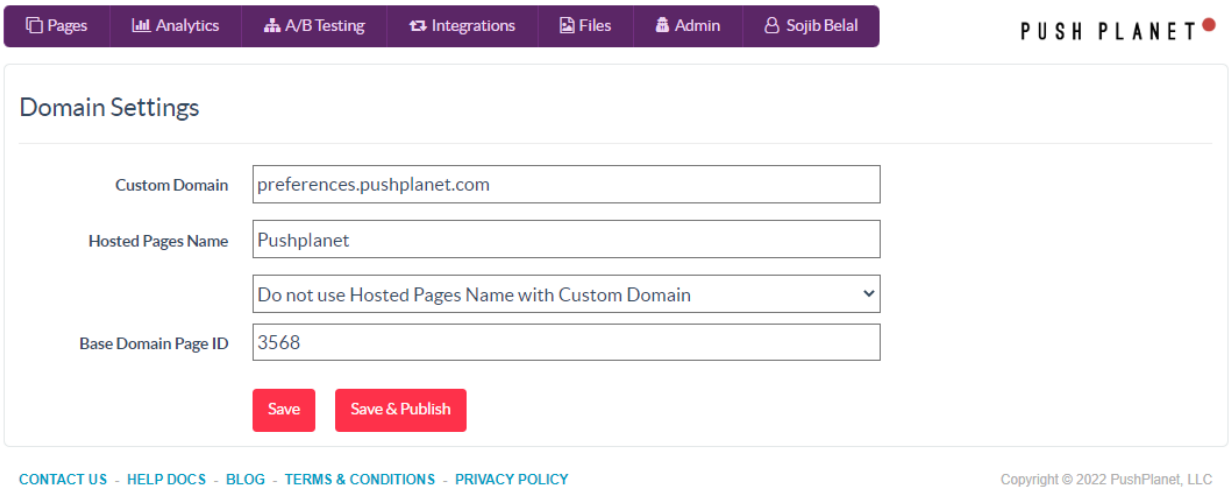

Click save

Step 2: Click on Profile>Custom Domain

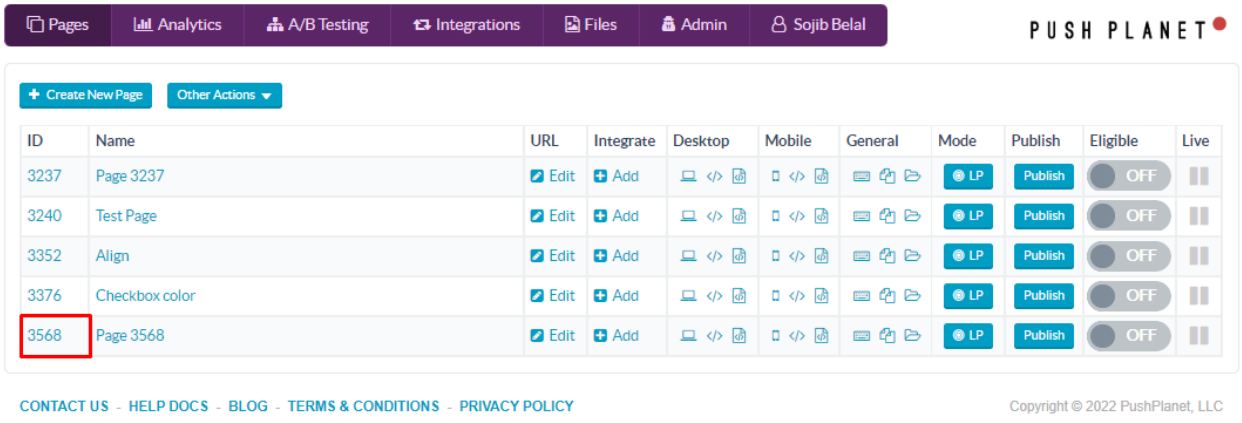

Add the Page ID as the Base Domain Page ID

Click Save.

You will find the page ID here:

Now your root path is set to the default URL for your preference center.
