How do I add the Digioh Javascript to just my Shopify Order page?

Last Modified on 06/24/2026 12:34 pm EDT

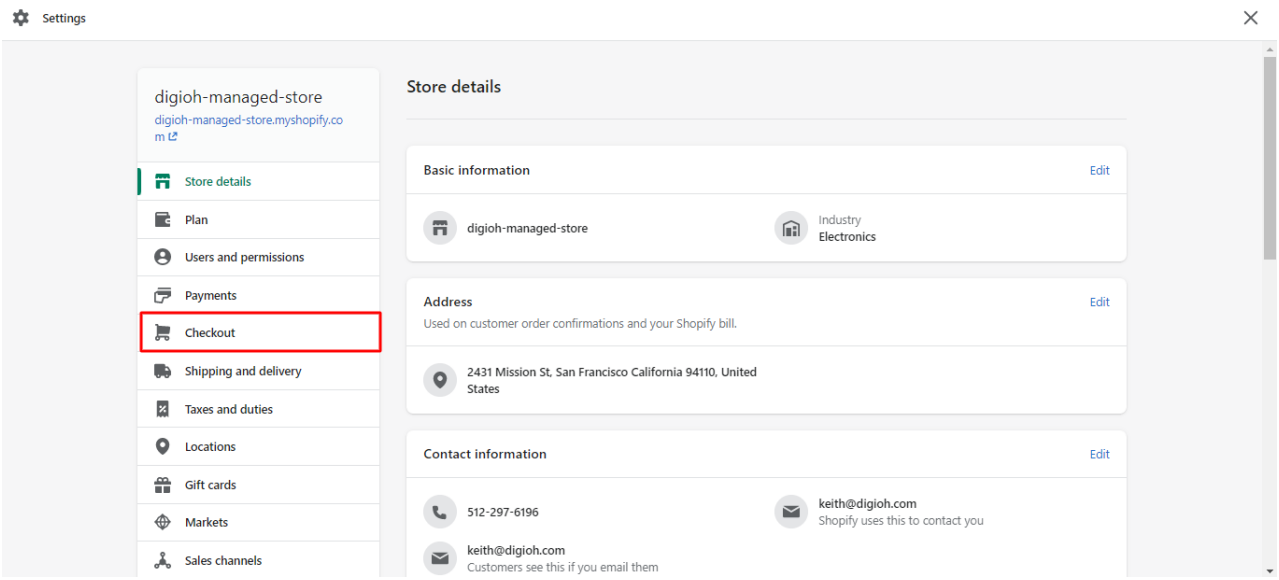

This is how you add the Digioh JavaScript to your Shopify order page. This works for all Shopify packages and great for Post Checkout Surveys and Opt-In Forms on your Thank You page

If you already have Digioh running on your Shopify site running on all pages, do not follow these steps.

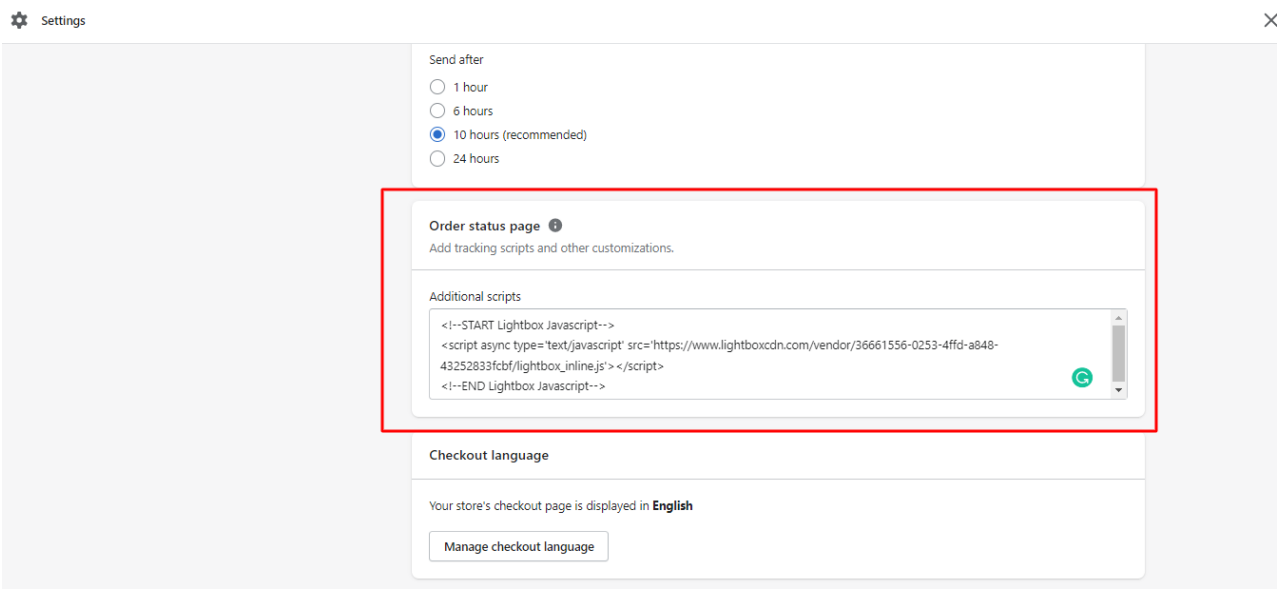

1- Go to Shopify Settings page

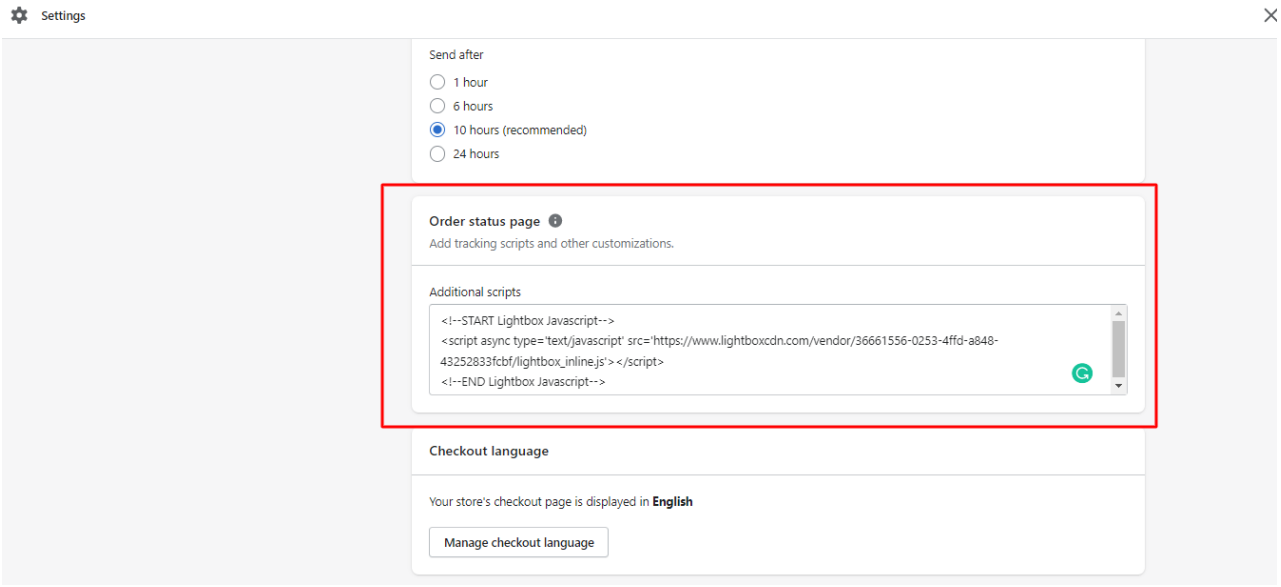

2- On the settings page click on the checkout page in the left sidebar area.

3- On the checkout page scroll down to the bottom Order status page section.

4- Paste the digioh script in the Order status page Additional scripts section

5- Click the Save button

And you will be good to go.
