How to integrate with Stamped

Last Modified on 07/06/2026 2:45 pm EDT

Stamped is the reviews and loyalty platform for eCommerce, helping you establish brand credibility by building trust and giving your customers a voice.

Digioh's Stamped integration capture more customers with behavior-based triggers - Exit, Post Checkout, Entrance, Timer with pop-up forms, pop-ups, surveys, and quizzes.

Stamped Integration Requirements

Before setting up your integration, you will need the following parameters from Stamped:

- apiKeyPublic
- apiKeyPrivate
- Store Hash

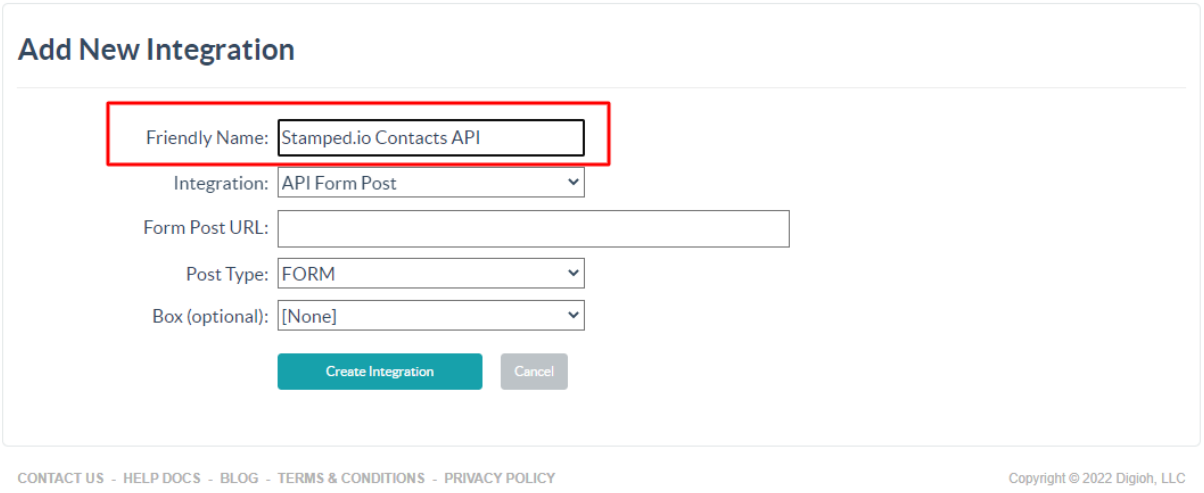

All these parameters are listed on Stamped API Settings Page.

If you are setting up a Digioh integration by yourself, we first recommend reading about Digioh Integration Basics.

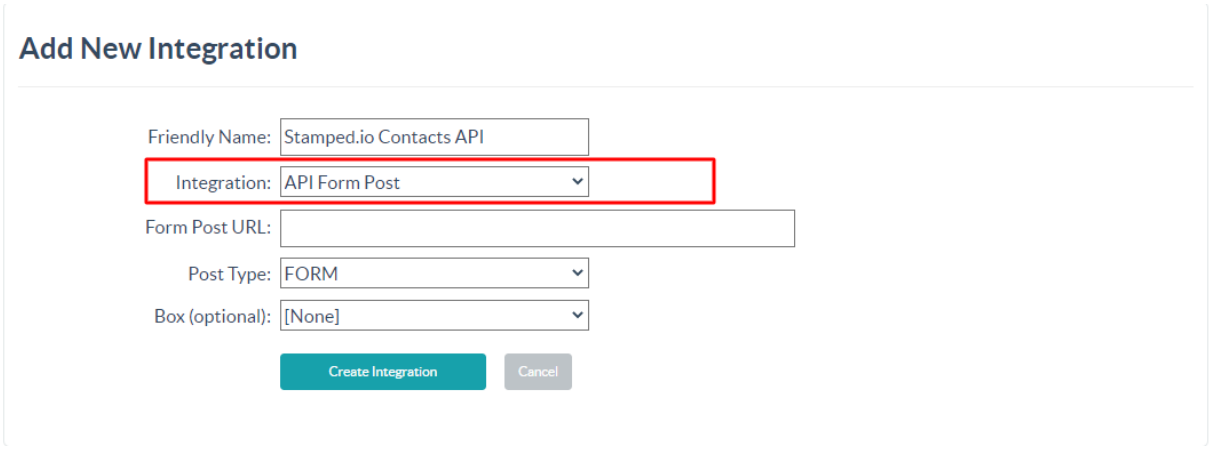

Follow these instructions to integrate with Stamped.

1. Add a New Integration.

2. Set a name in the Friendly Name field.

3. Set API Form Post in Integrations Dropdown.

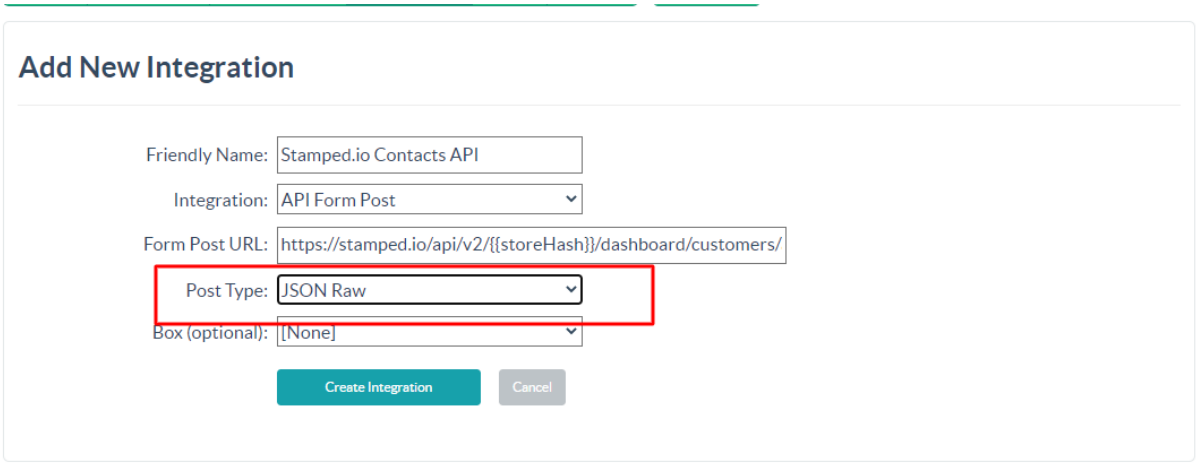

4. Enter Form Post URL

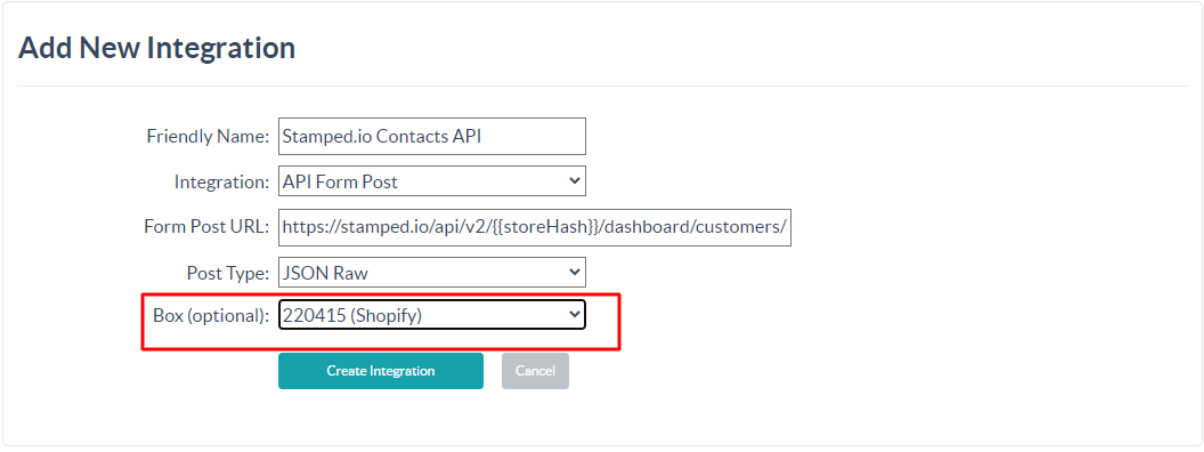

https://stamped.io/api/v2/{{storeHash}}/dashboard/customers/add

Note: Replace the:*{{storeHash}}* with the Store Hash value that we copied from the stamped API settings page.

5. Select FORM in Post Type Dropdown

6. Select Campaign

7. Click Create Integration.

After clicking **Create Integration**, you will see the Integration Advanced settings page

8. Configure the Advanced Integration Settings.

- Set the HTTP method to **POST**
- Add apiKeyPublic in **Basic Auth Username:**
- Add apiKeyPrivate in **Basic Auth Password:**
- Add the follwing JSON in Raw Data to Send (merge variables will be replaced) field

```
{
 "email": "[EMAIL]",
 "firstName":"[FIRST_NAME]",
 "lastName":"[LAST_NAME]",
 "tags":"",
 "dateBirthday": "1987-12-24"
}
```

Note: Edit the JSON as needed.

That's all Your Stamped contact integration is ready to go!
