First, you must create a Product Recommendation Quiz. After creating your Shopify product quiz, you can create the landing page in Shopify and generate Digioh quiz answers there.

To show quiz recommendations on a landing page, follow the steps below:

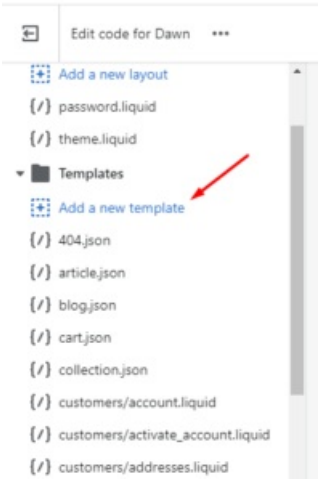

Step 1: Click on **themes** from the online store

Step 2: Click on **edit code** from the **current theme** e.g "**Dawn**"

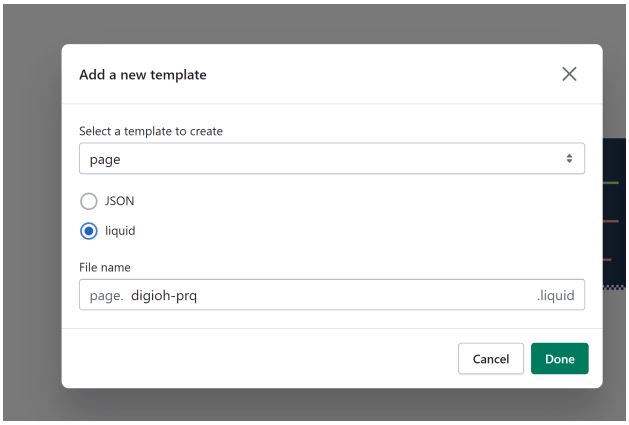

Step 3: Click on **Add a new template** from **Templates**

Step 4: Select a template to create '**page'** And select the type **liquid.**

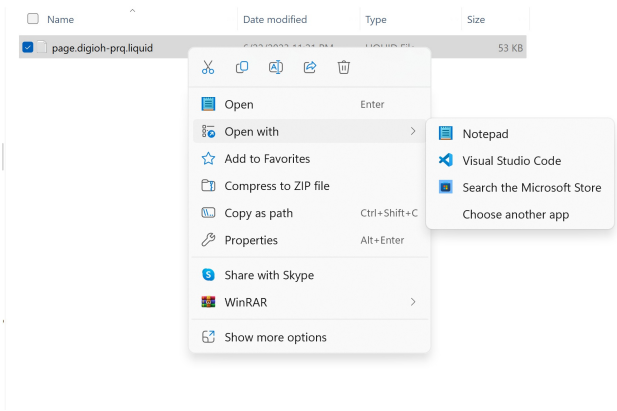

Step 5: Add the File name "**digioh-prq**" and press done to create file " **page.digioh-prq.liquid**"

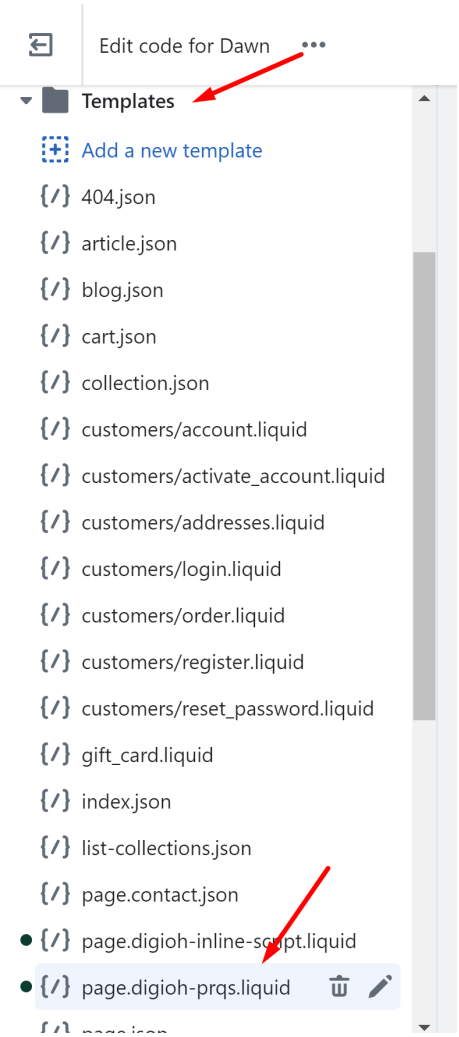

Step 6: Download Our PRQ Liquid template

Step 7: Open the download file page.digioh-prq.liquid in the text editor(Notepad), select all the code, and copy the code from the editor(Notepad).

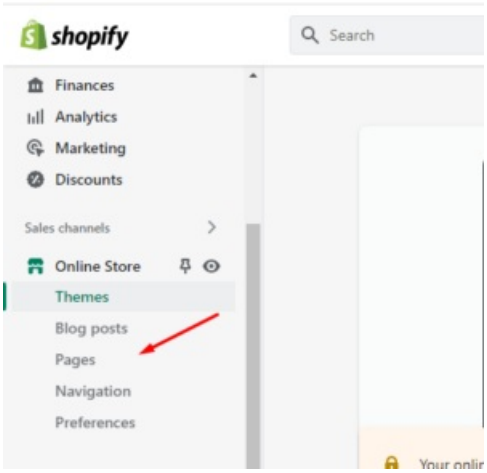

Step 8: Paste the copied code in page.digioh-prq.liquid in Shopify theme Templates area.

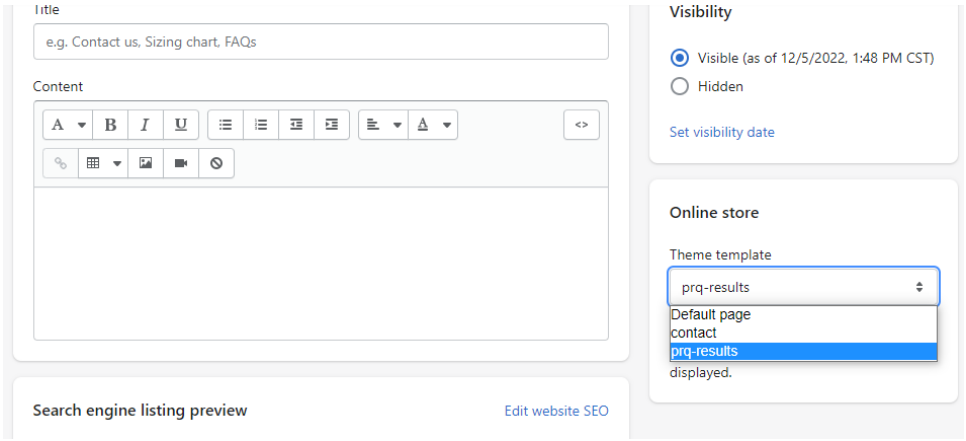

Step 9: Click on save button to save the file

Step 10: Click on pages from the online store.

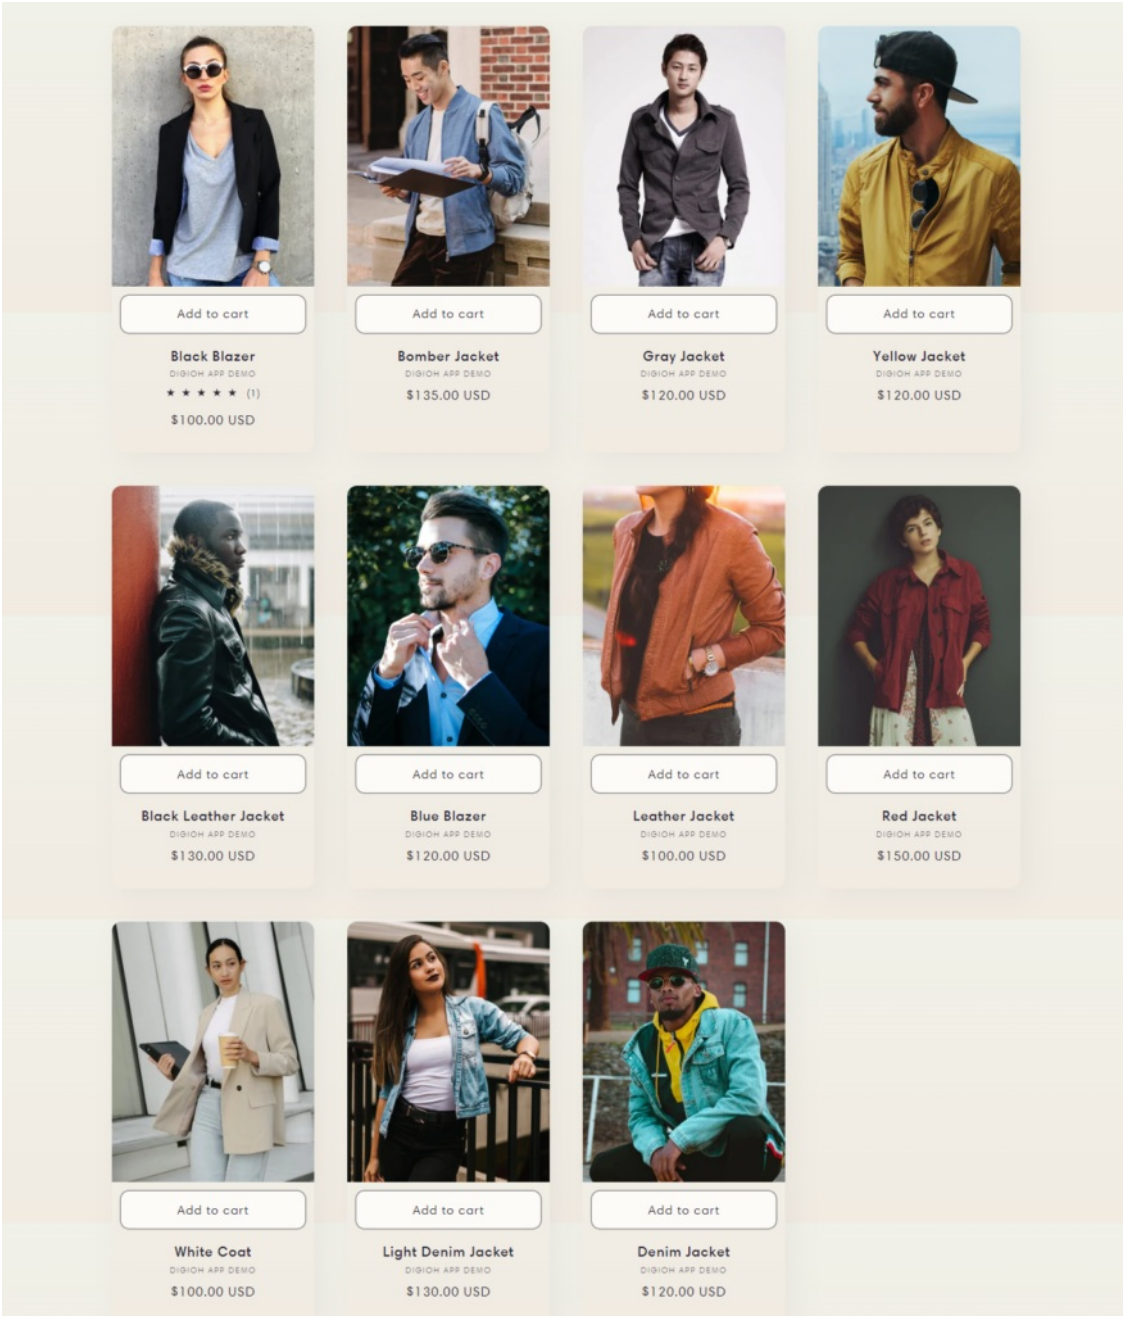

Step 11: Add a New page name "Quiz Results" and select the theme template.

On the result page, we can **enable product reviews, add to cart, & display options** .

It will act exactly like your collection product list template.
