

How to Optimize for Screen Readers in Digioh

Last Modified on 06/24/2026 4:44 pm EDT

Screen readers are an important part of keeping the internet accessible. The **ADA Box Controls for Screen Readers V2** extension ensures that your Digioh Campaigns are set up correctly for screen reader compatibility, including appropriate ARIA labels, tab ordering, and roles. Once installed, the extension runs automatically on all Campaigns in your account.

Installing the Extension

1. Log in to your Digioh account.
2. Navigate to the **Extensions** section under your account name menu.

3. Find **ADA Box Controls for Screen Readers V2** in the Accessibility section and click **Install**.

4. Once installed, make sure to click **Publish to Your Site** for the extension to start running.

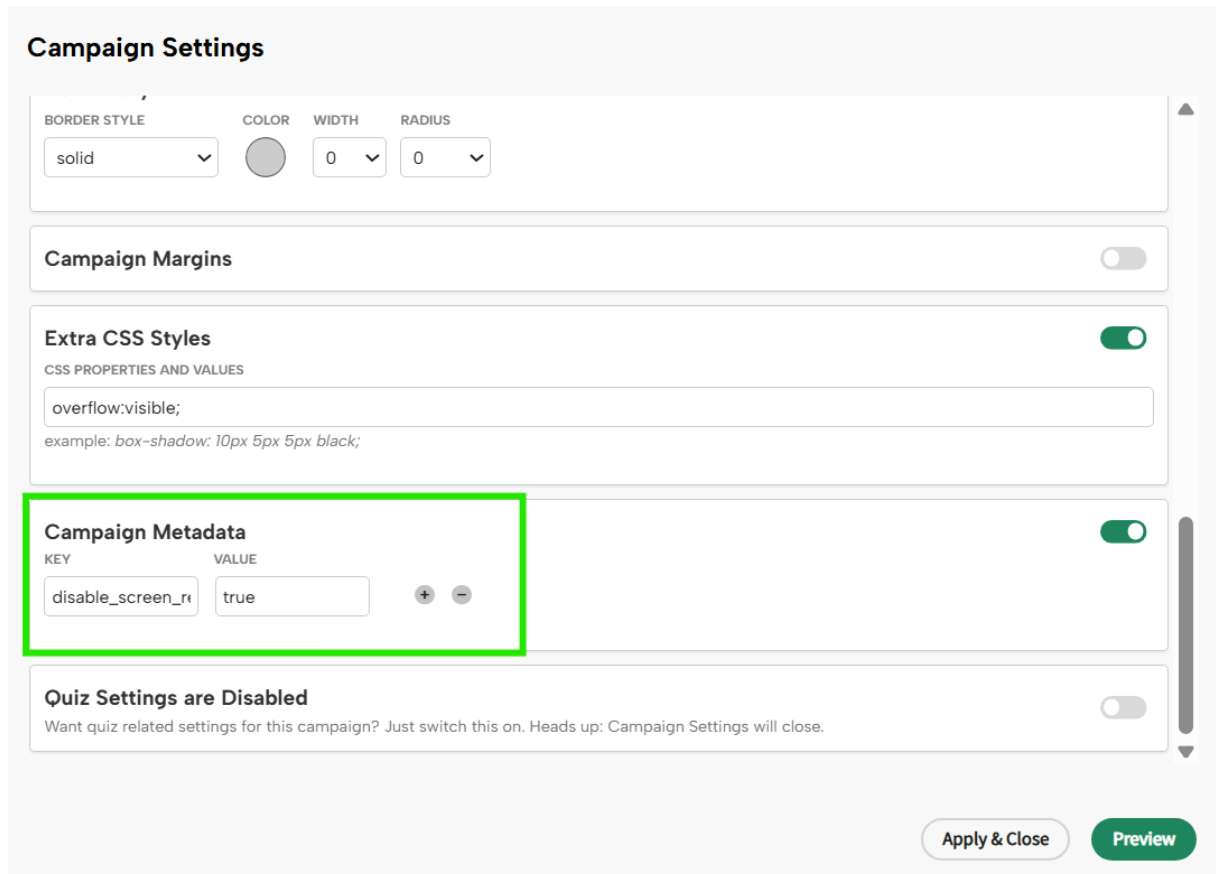

The extension will now run on all Campaigns in your account.

Disabling the Extension for a Specific Campaign

If there is a Campaign you want to opt out of the extension, you can disable it using campaign-level metadata.

1. Open the Campaign in the Campaign Editor.
2. Navigate to **Settings > Campaign Settings > Campaign metadata** .
3. Add the following metadata:

- **Metadata Key:** disable_screen_reader
- **Value:** true

The screenshot displays the 'Campaign Settings' interface. At the top, there are controls for 'BORDER STYLE' (set to 'solid'), 'COLOR' (a grey circle), 'WIDTH' (set to '0'), and 'RADIUS' (set to '0'). Below this is a 'Campaign Margins' section with a disabled toggle. The 'Extra CSS Styles' section is enabled and shows 'overflow:visible;' with an example: 'example: box-shadow: 10px 5px 5px black;'. The 'Campaign Metadata' section is highlighted with a green box and is enabled. It contains a table with two columns: 'KEY' and 'VALUE'. The first row has 'disable_screen_reader' in the key column and 'true' in the value column. There are '+' and '-' buttons to the right of the value field. At the bottom, there is a 'Quiz Settings are Disabled' section with a disabled toggle and a note: 'Want quiz related settings for this campaign? Just switch this on. Heads up: Campaign Settings will close.' At the very bottom right, there are 'Apply & Close' and 'Preview' buttons.

4. Click **Save** and publish the Campaign.
