Skio Integration

Last Modified on 06/24/2026 3:00 pm EDT

Integration Description

Digioh + Skio makes it easy to drive subscription sign-ups through quizzes and pop-ups

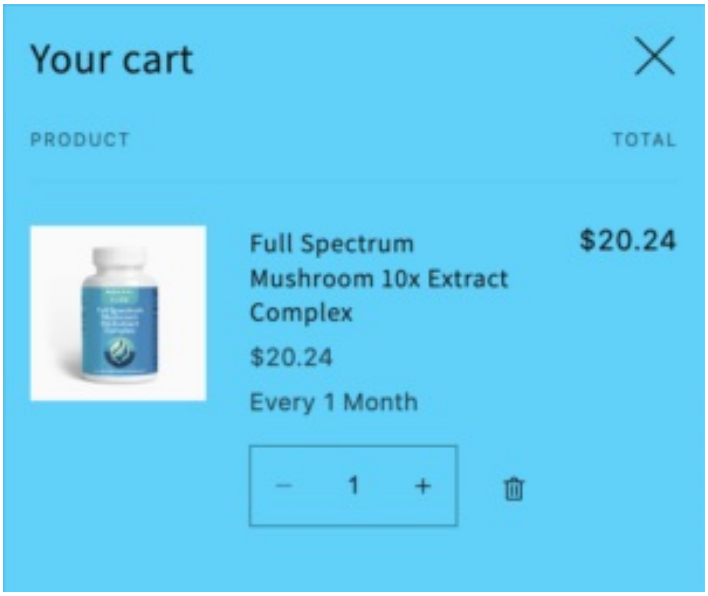

Use Cases

- On the quiz results page, add the option to "Subscribe and Save" under any/all products that are recommended.
- Target pop-ups to non-subscribers once they hit a certain threshold. For example, fire a pop-up for someone who has purchased 3 times but hasn't subscribed.
