How to Add an Integration to a Campaign

Last Modified on 06/24/2026 3:52 pm EDT

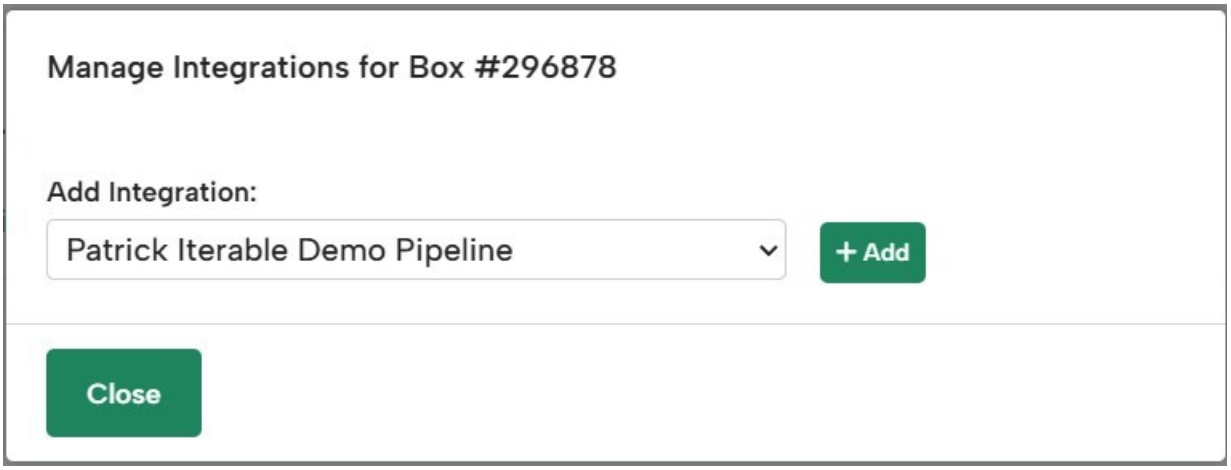

You can connect any form-powered campaign in Digioh to your preferred marketing platform, CRM, or custom endpoint using the Integrations feature. You can also connect multiple integrations to a single campaign! This help doc will guide you through adding a new integration to a campaign.

From the Campaign List

To add an integration to a campaign from the Campaign List, select Integrations under the additional campaign options:

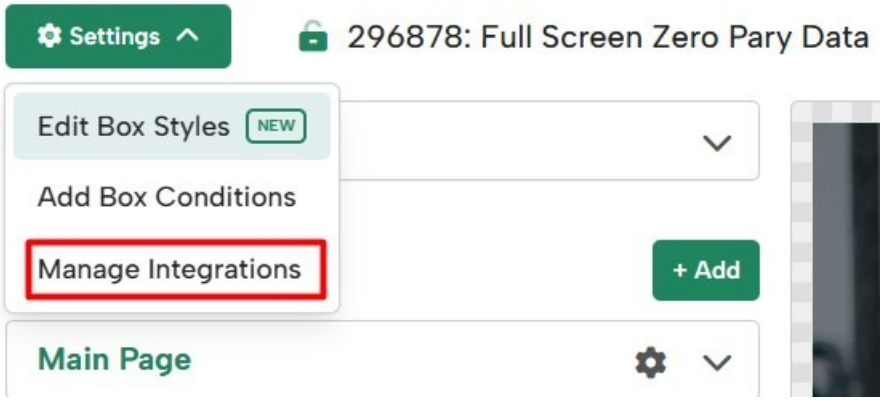

You can then select which integrations you'd like to add:

From the Campaign Editor

To add an integration to a campaign from within the campaign editor, select Manage Integrations from the Settings dropdown:

You can then select which integrations you'd like to add:
