

# Changing a Page's Background Image

Last Modified on 06/25/2026 9:27 am EDT

Adding background images is a great way to make your campaigns more eye catching! You can follow the below steps to add a background image to a page in a campaign.

## 1. Open the Campaign Editor

Go to your Digioh account and open the campaign where you want to change the background.

## 2. Select the Page

Click the page (e.g., Main, ep1, Thank You) where you want the background image changed.

## 3. Set the Campaign Background Settings

In the layout settings, locate the "Page Background" settings. To use an image for the background, toggle Use Image on and select the image to use:

The screenshot shows the 'Page Background' settings panel. At the top, there are three options: 'COLOR' with a circle icon, 'USE GRADIENT' with a toggle switch, and 'USE IMAGE' with a toggle switch that is turned on and highlighted by a red box. Below these is a 'SELECT IMAGE' dropdown menu, also highlighted by a red box, which currently shows 'bluecitybg2.png' and a downward arrow. Underneath the dropdown is a '+ Add Image' button. At the bottom, there are two more dropdown menus: 'IMAGE REPEAT / SIZE' set to 'no repeat' and 'IMAGE POSITION' set to 'center bottom'.

If you haven't already, you can also use the Add Image button to upload your image without leaving the editor!

If you're ever looking to have the background image change dynamically, you can always check out our [Page Background Image Dynamic Replacement extension](#).
