

# Preserve Quiz Answers When Clicking “Back”

Last Modified on 06/25/2026 9:19 am EDT

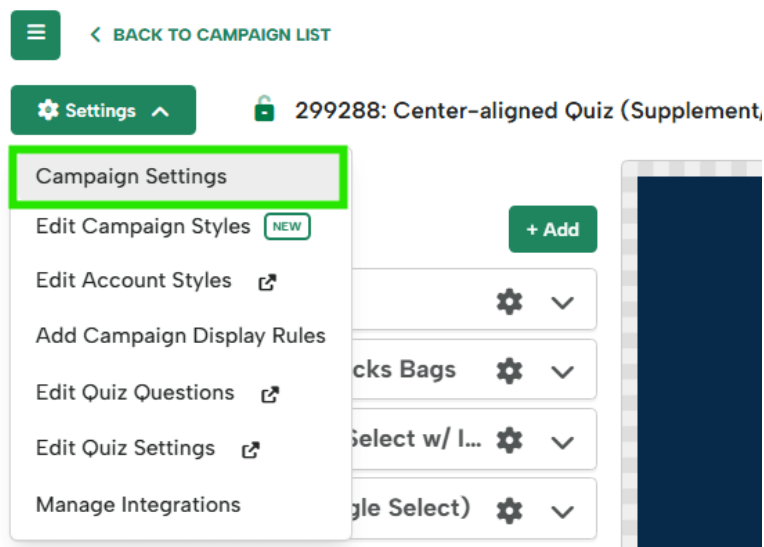

## Overview

By default, Digioh quizzes reset a page’s answers when the user navigates backward. This behavior prevents potential logic conflicts in advanced quiz setups.

However, if your quiz requires users to go back and review or change previous answers without losing their selections, you can now enable **answer persistence** using a campaign-level metadata key.

## How to Enable

1. Open your quiz campaign in the Digioh Editor.
2. Click Settings → Campaign Settings.

3. Scroll down to the **Campaign Metadata** section.
4. Add a new metadata key/value pair:

- **Key:** `skip_page_reset`
- **Value:** `true`

Want to remove a quiz from this campaign? Just switch this off. Heads up: Campaign Settings will close.

Apply & Close Preview

5. Click **Apply & Close**, then **Save** your campaign.

That's it! Your quiz will now remember users' answers when they navigate backward.

## Notes

- This feature is applied at the **campaign level**, meaning it affects all pages in the quiz.
  - The setting is ideal for quizzes with limited branching or static logic paths.
  - Available on all Digioh quiz types.
