

Digioh User Roles

Last Modified on 08/25/2026 4:12 pm EDT

Digioh has three user types with different permissions:

- **Account Administrator (User):** owns the account email; can add Sub Users and manage all account settings (such as billing).
- **Super User:** Can access and manage multiple accounts. Once a super user is created, accounts must be assigned to them so they can manage those accounts.
 - A super user can create other super users and assign them accounts.
- **Sub User:** added under an account with limited permissions set by the Account Administrator.

Role capabilities overview:

Access	Super User	Account Admin	Sub User
Maintain campaigns	Yes	Yes	Yes
Create sub users	Yes	Yes	Yes
Manage sub users	Yes	Yes	No
Manage integrations	Yes	Yes	Yes
Manage multiple accounts	Yes	No	No
Create super users and assign accounts	Yes	No	No
Account Billing	Yes	Yes	No

If you are looking to add, modify or remove users, check out our [this help article](#).
