How to embed Marketo Forms in a Digioh Campaign

Last Modified on 06/25/2026 9:06 am EDT

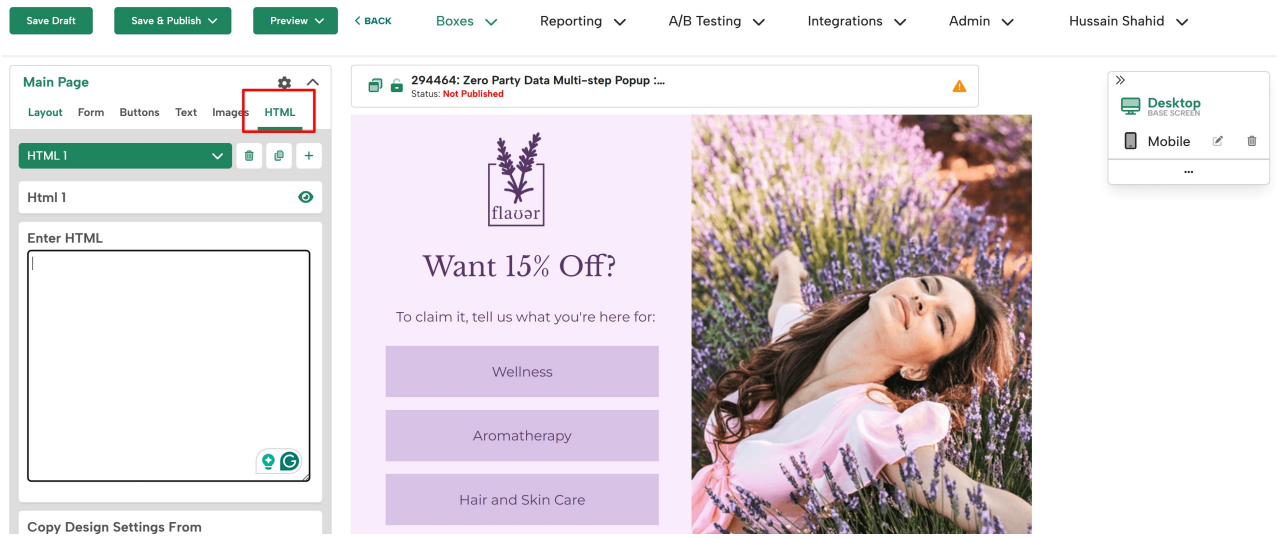

What You'll Learn in This Article

- Embed a Marketo form within a Digioh campaign
- Add the Marketo script to a Digioh HTML block
- Trigger the form load using custom JS after display
- Save and publish the integration for live use

For advanced use cases, you might want to embed a Marketo form in a Digioh campaign.

Here is how to do it:

Step 1: Open an HTML block inside the

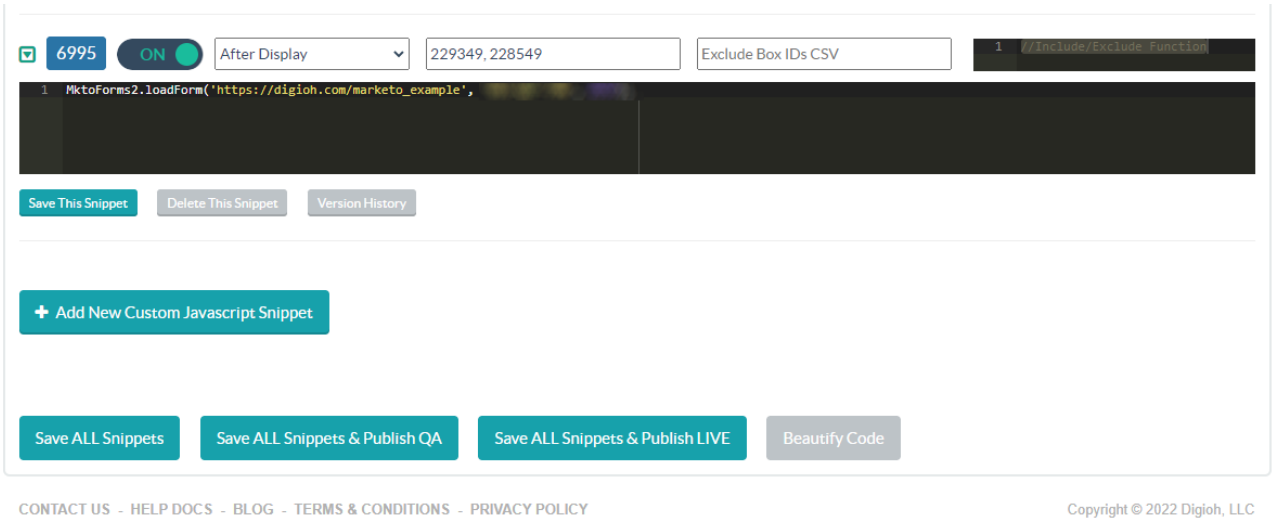

Digioh editor.

Step 2: Add in your Marketo Script.

Step 3: Create a custom JS campaign with event trigger **"After display"** And add in your last line of script code in the JS like this:

```
MktoForms2.loadForm('https://digioh.com/marketo_example', 'XXX-XXX-XXX', XXXX);
```

Hit Save and publish the account.

And you are all set to embed the Marketo form in a Digioh campaign.
