Email Validation Platforms Supported by Digioh

Last Modified on 06/10/2026 11:07 pm EDT

Digioh supports integrating with third-party email validation platforms to verify email addresses in real time before a form is submitted. This helps ensure the data you collect is accurate and reduces issues with email deliverability and list quality.

Digioh currently supports the following email validation platforms:

- Briteverify
- Kickbox
- Never Bounce
