

# How to add a drop shadow to your popup

Last Modified on 06/10/2026 11:07 pm EDT

## What you'll learn

- Add a drop shadow to a campaign
- Customize the shadow and border-radius

To add a drop shadow to your popup, you can apply campaign-shadow CSS in the **Campaign Settings** section:

When you scroll down, you'll find the **Extra CSS** section. Simply toggle it on and add the CSS you need.

## Campaign Settings

OFF

---

### Close Button Settings ?

SELECT CLOSE BUTTON IMAGE:  + Add Custom Image

CLOSE BUTTON POSITIONING:

CLOSE BUTTON HORIZONTAL OFFSET:  10px

CLOSE BUTTON VERTICAL OFFSET:  10px

---

### Extra CSS ?

CSS PROPERTIES AND VALUES

example: *box-shadow: 10px 5px 5px black;*

---

### Campaign Metadata ?

KEY:  VALUE:  + -

---

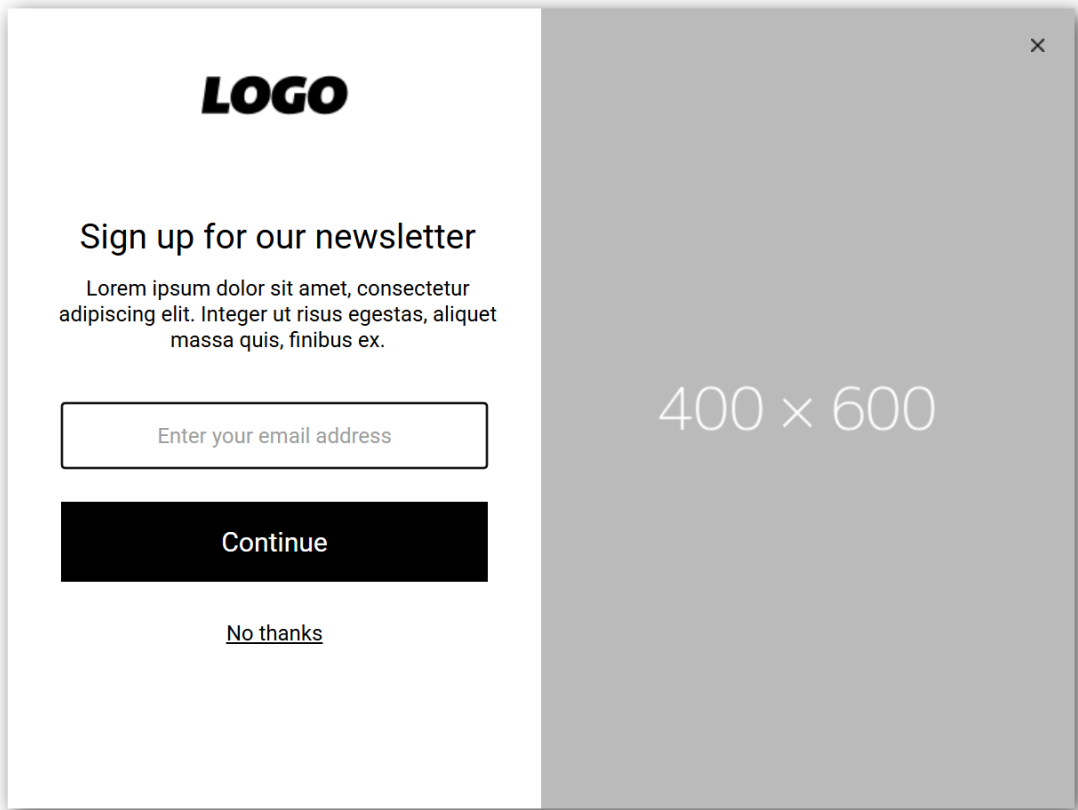

### Quiz Settings are Disabled ?

Want quiz related settings for this campaign? Just switch this on. Heads up: Campaign Settings will close.

Here is an example of campaign-shadow CSS you can add:

```
box-shadow: 0 2px 10px rgba(0, 0, 0, 0.5);
```

This is how it will look in action:

You can customize your campaign-shadow CSS as needed. [Learn more here.](#)

**IMPORTANT NOTE:** If your popup has a border-radius set on the layout, you will need to also add extra CSS to accommodate that.

**Layout Styles**  
Save time designing your Campaign. Set up some Campaign level styles. [Set Up Now](#)

**Page Border**

BORDER STYLE	COLOR	WIDTH	RADIUS
<input type="text" value="solid"/>	<input type="color" value="black"/>	<input type="text" value="1"/>	<input type="text" value="6"/>

**Page Background**

COLOR	USE GRADIENT	USE IMAGE
<input type="color" value="white"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

SELECT IMAGE

[+ Add Image](#)

IMAGE REPEAT / SIZE	IMAGE POSITION
<input type="text" value="contain"/>	<input type="text" value="right center"/>

In the same Extra CSS Styles section mentioned above, add border-radius CSS like the example below :

```
border-radius: 5px;
```

## Extra CSS

CSS PROPERTIES AND VALUES

```
box-shadow: 0 2px 10px rgba(0, 0, 0, 0.5); border-radius: 6px;
```

example: *box-shadow: 10px 5px 5px black;*
